

Sankosha Finishing Solutions

Laundry

# LP-590U Single Buck Shirt Press

**Superior Quality**

## Sleeve Arm Up/Down Function

Our newly designed sleeve arms now move up and down to provide the proper finish on any shirt type.

## Oversized Press Heads

Handles those hard to press XXXL shirts.

## Control Panel

Now angled toward operator making it more user friendly.

## Cuff and Sleeve Arm Controls

Special design makes it easy for the operator to produce the highest quality shirt.

# LP-690U

Single Collar Cuff Press Tensioning Type

**Prevent Shrinkage**

- Tensioning function produces superior quality while preventing/correcting shrinkage
- Innovative design and technology
- Compact blueprint and easy to maintain

# LP-190U Double Buck Shirt Press

Maximum Productivity

## Shoulder Press

Standard Equipment for much better finishing quality.

## Sleeve Arm

"Soft Tensioning" reduces tension on the shirt's sleeve quickly after finishing.

## Steam Injection

A new steam injection system covers the entire body width and with a new heated buck body, processing time is reduced.

## Blower Motor

More powerful motor delivers faster finishing cycle times.

# NEW! LP-1300U

Quadruple Collar & Cuff

- Tensioning function supplies superior quality while preventing/correcting shrinkage
- High Productivity
- Can accommodate up to two double bucks
- Rotary style can handle four shirts at one time

# NEW! MF-300U Multi Garment Finisher

## Trustworthy Performance

## LP-685U

### Double Collar Cuff Vacuum Type

#### Heated Front Clamp

Heater unit is installed, providing a better finishing quality.

#### Automatic Shoulder Expander

Shoulder expander is gap free making for much better quality.

#### Front Clamps / Tensioning Body

This feature lets the body raise up slowly to maximize finishing quality.

#### Tall Clamp Unit

Clamp Unit is larger so it can hold even a small ladies blouse.

#### Auto Arm Adjuster

#### Side Expander Unit

Side expanders are adjustable to any type of garment (such as tapered side)

#### Small Footprint

Works efficiently with either two single bucks or one double buck.

#### Built in Vacuum

Reduces drying time and increases production.

#### Newly Designed Cuffs

The higher angle on the cuffs will accommodate smaller women's blouses as well as french cuffs.

#### Tensioning Collar

The unique tensioning feature will eliminate those frustrating wrinkles from the collar.

## Laundry Hot Head Presses
